

## BACCALAUREATE SERMON TODAY

Rev. Parker Will Address High  
School Class.

EXERCISES WEDNESDAY

Normal Students Will Gradu-  
ate Tuesday.

At the First M. E. church this morning at 10:30 o'clock Rev. A. A. Parker, of the St. Paul's M. E. church, will preach the baccalaureate sermon for class 1934, of the Wichita high school, before a class of fifty-nine students.

The church has been handsomely decorated with palms and the seats reserved for the class, faculty and board of education, are separated from the others by ribbons of the class colors, pink and blue.

Special music has been prepared by the full church choir. They will sing Dudley Buck's "De Deum in D minor and also the "Sanctus" from the twelfth mass. The subject of Rev. Parker's address will be "True Prosperity." The class, faculty, and the board of education will meet at the high school this morning at 9:30 o'clock from which place they will march to the church in a body.

Today marks the beginning of commencement week in Wichita. This week the high school, normal and grammar schools will hold their commencement exercises. On Wednesday night, at the Toler, the city high school's commencement exercises will be held. The following is the program:

Overture—Waltz La Solera.....Nathan High School Orchestra.

Oration—"Anglo Saxon or Slav?".....Raymond Little.

Oration—"Are We Free?".....Presentation of Diplomas—Eudolph Hatfield, president of the board of education.

Song—"Greeting to Spring".....Strauss Lichter, Class of '34.

Benediction.

The tickets for the commencement will be on sale and for reservation on Monday morning for the general public. Those who have the complimentary tickets which were issued to the class for their friends, the pupils of the high school and the faculty and board of education, may be reserved tomorrow morning at 1 o'clock at the Toler.

CITY NORMAL EXERCISES.

Commencement exercises of the city normal will be held at the Toler Auditorium next Tuesday night, May 21. A very appropriate program has been prepared for the occasion and a splendid time is expected.

There are seven graduates: Misses Barrows, Swad, Kaufman, Markay, Cox, Conley and Willis, who will be given diplomas. The high school orchestra will furnish the music and Frank Nelson, co-superintendent of public instruction, will deliver the address to the class. Mr. Nelson is an interesting talker and his address on this occasion will be unusually fine.

The grammar school commencement will be held on Thursday night, also at the Toler. Ex-Governor Stanley will address the class which is composed of 36 graduates. Elaborate programs will be given at both of these affairs. The admissions will be free by ticket. The teachers will all have tickets for free distribution and Superintendent Knight will also have a number for those desiring to attend.

### WILL PLAY TODAY.

Cudahy and Catholic Clubs to Cross Bats.

The Cudahy baseball team will cross bats with the C. Y. M. C. team at the fair grounds this afternoon at 2 o'clock. The Cudahys have just organized for the season and their line-up is about the same as it was last year. A warm game is expected. No admission fee will be charged.

### TO DISSOLVE PARTNERSHIP.

Members of the Fulton Clothing Co. to Make a Change—Big Stock to Be Closed Out.

There was a great surprise in business circles when it was rumored that the big Fulton stock of clothing was to be closed out. A reporter for the Eagle questioned Mr. L. Jacobs, managing partner of the Fulton Clothing company, and the rumors about were verified to some extent. In part Mr. Jacobs said:

"Yes, there is to be a change. I myself will retire just as soon as we can get matters fixed up, other business interests compelling me to make a change."

"It is our intention to convert the entire stock into cash within the next sixty days. With this in view we are exerting every energy. The sale is to be advertised very extensively, and it will be necessary to close our store three days—Wednesday, Thursday and Friday—this week to mark down the stock and get it arranged for the sale, which starts Saturday morning."

Their announcement will be found in the advertising columns of this issue.

### WRITES FROM CALIFORNIA.

Ira Bond Saw Turtle Seven Feet in Length.

Ira Bond, who left this city some time ago for California to go into business, writes quite an interesting letter of that country to his wife.

While down on the coast one day Mr. Bond saw a turtle that was seven feet long, four feet wide and three and one-half feet through the center. The turtle weighed 1,500 pounds and was thought to be 800 years old. A man in a steamboat, who saw the turtle, hauled it with a heavy rope. When the turtle got ready to move it reared down stream and took the vessel, which was equipped with a seventeen horse power engine, whirling through the water.

Mr. Bond writes that delicious strawberries can be purchased for 5 cents per box and a candy pocket full of oranges can be bought for 10 cents. He meets a number of Wichita people in that state and says all are well pleased with California and intend to remain there.

### ELECTED HONORARY MEMBERS.

Congressman and Secretary Belong to Federation of Butlers-in.

Yesterday Congressman Victor Murdock and his secretary, David D. Leahy, received notice that they had been elected honorary members of the National Federation of Butlers-in.

This is a growing organization of which Will Russell of Denver is president, Byron Shea of Kansas City is secretary and Michael Duly of Topeka is grand keeper of the coast. By a singular coincidence all three of the main officers are formerly of Wichita boys, which shows that the Peerless Principles have not yet been forgotten wherever they go.

The matter of the honorary membership is this, that wherever the congressman and his secretary may go they may butt in if there is a lodge of the federation there.

### ARE MUD SLINGERS.

Small Boys of East End Have Exciting Battle.

The East End has undergone considerable excitement during the last day or two. Some six or eight small and larger boys who had collected at the corner of Third and Wash on Friday afternoon engaged in a "mud battle" for a time, which left the walks and doorsteps of immediate neighbors in rather a deplorable condition. Dr. Lawry, who resides at the southwest corner, was just returning home as the boys concluded their sport and retired to the opposite corner. Observing the condition of things, the doctor, with shovel and broom, at once commenced the task of improving the moral condition of the walks. After a perspiring effort for some time, and not noticing whether the boys had gone, he was suddenly startled by a shower of mud flying around and past his feet. Not thinking that his own person was the object of attack, the doctor continued the task of mud cleaning until the second and third policy of mud had been cast over and around him and into his doorway. Instantly the boys were observed in a huddle behind a tree, evidently frightened at the outcome of their fun. None of the boys are of the immediate neighborhood, but their names and residences have been ascertained and there is a good prospect of that crowd having some fun of another kind.

## "Cravenettes"

Many a woman who knows what  
useful and handsome garments our  
Cravenette Rain Coats are is puzzled  
to account for the shabby,  
bedraggled appearance of some  
Rain Coats he sees, which are also  
stamped "Cravenette."

It's simply because "Cravenette"  
is the name of a process, not a  
cloth; and in inferior fabrics are  
treated with it as well as substan-  
tial all wool and fast color goods  
such as we use exclusively.

These cheap materials are rain-  
proof all right, because the craven-  
ette process is most effective, but  
they must not be expected to give  
any more service than they would  
without the "Cravenette" stamp.

insville, Ga., was found in a swamp re-  
cently with his tongue cut out. The  
crime is attributed to other negroes with  
whom Thomas had had trouble.

Bessie Dudley Oser, that during her life time she was the owner of certain property in Mount Hope and in 1887 she executed a warranty deed for the property to G. C. Robbins for the consideration of \$1,200, which deed was recorded.

The petition declares that the deed was made for the purpose of securing a loan and that it was verbally agreed between the parties that at any time G. C. Robbins should receive the said sum of money that he should then reconvey the property to Mrs. Dudley.

The plaintiffs state that the defendant took possession of the property on February 1, 1887, and that he was to credit to the indebtedness the rents and profits received from the real estate, that on the real estate there was a two story frame hotel and with it, beds, furniture, etc., in the amount of \$200 for which he agreed to give on the indebtedness. They now claim the amount arising from the property together with the \$200 now exceeds the amount of the loan by \$1,900, for which they ask judgment, and also a quiet title to the real estate.

Only and Only are the attorneys for the plaintiffs.
